6th CADAVERIC CONFERENCE AND CME ON PELVIACETABULAR FRACTURES AND MISS SPINE STABILISATION

Under the Aegis of
TOCF

Govt. Medical College
Idukki

On 9th - 11th June 2023
At Govt. Medical College, Idukki
And Munnar, Kerala

It gives us immense pleasure to invite you to the 6th cadaveric workshop and CME on **pelviacetabular fractures and MISS spine fixation surgery** to be held in **Munnar, Kerala on 9th - 11th June 2023**

After the successful completion of Five conferences and repeated requests by the delegates to have a more detailed **hands-on conference** we have extended the conference to three days so that we can have **more engaging sessions**

This time we are giving hands on training and a **one on one session** with **Dr. Ramesh Sen** for one full day to train you in performing these complicated surgeries using the best implants, AO techniques and instrumentation from across the world. We have a **Cadaveric percutaneous Fixation** session also.

This time we have an **optional Cadaveric MISS Spine fixation** (Minimally invasive) session on is limited to **10** and includes the acetabular workshop

The number of cadaveric participants are limited and given on **first come first serve basis**. Kindly book your seats at the earliest to avoid missing to learn from the best. Registration for CME is compulsory for workshop.

We have a **residential package** which includes the Basic and advanced (acetabular) workshop, stay at Munnar Resort (venue of CME)Idukki with transport to cadaveric session.

Participate, interact and make use of this opportunity to learn personally from the experts and improve your surgical skill to become the best.

Join the conference to have a memorable experience

PROGRAMME AT A GLANCE

**WORKSHOP-1
MISS SPINE Fixation**

- | | |

Secretary

Dr Ratheesh
Treasurer

Dr Paul Chalissery
Vice President

Dr Abhimon
Joint Secretary

**WORKSHOP-2
Advanced Acetabular workshop**

- Advanced acetabular Workshop
- Anterior Fixation on cadavers
- Posterior fixation on cadavers
- Percutaneous screw fixation
- THR on acetabular fractures with cage
- 2) Pelvis
- Anatomy
- Classification
- Approaches
- Radiology and Carm Positioning

- Reduction Techniques
- Implantation and instrumentation
- Cadaveric Session/ Bone Models
- Post Lunch
- External fixation
- Symphyseal Plating
- Sacroiliac plating anterior/posterior
- Percutaneous scroiliac screw fixation
- Cadaveric Session/ Bone Model session

**CME
Highlights on CME**

- Classification of acetabular Fractures
- Investigations and radiology
- When to conserve / operate?
- Preoperative planning
- How the experts do it ?
- 1) Anterior coloumns fractures
- 2) Both Columns fractures Anterior
- 3) Both columns fractures operative Xray
- 4) T Type Fractures and associated fractures

- How to manage the complications
- Total hip Replacement as a treatment
- MISS Spine Fixation – newer advances
- Classification of pelvic fractures
- How the experts manage these fractures?
- 1) Primary management
- 2) Sacroiliac Joint – Anterior vs Posterior
- 3) Public symphy– superior vs
- 4) Public ramus – operative vs non

Free paper and poster presentation

Registration

Residential package on twin sharing	Includes workshop, (Acetabular) CME & Accomodation		25000		Spot CME
	Basic workshop (acetabular)	Advanced Workshop (acetabular)	MISS Spine + Acetabular workshop	CME	
PG student	6000	6000	15000	1000	2000
Member	6000	6000	15000	1000	2000
