# 5<sup>th</sup> CADAVERIC CONFERENCE AND CME ON PELVIACETABULAR FRACTURES AND MISS SPINE STABILISATION

Under the Aegis of  
KAPAS, TOCF &

Govt. Medical College  
Thrissur

On 8<sup>th</sup> - 10<sup>th</sup> April 2022  
At Govt. Medical College, Thrissur  
And Joys Palace, Thrissur, Kerala

**It** gives us immense pleasure to invite you to the 5th cadaveric workshop and CME on pelviacetabular fractures and MISS spine fixation surgery to be held in Thrissur, Kerala on 8th-10th April 2022.

After the successful completion of four conferences and repeated requests by the delegates to have a more detailed hands-on conference we have extended the conference to three days so that we can have more engaging sessions.

This time we are giving hands on training and a one on one session with Dr. Ramesh Sen for one full day to train you in performing these complicated surgeries using the best implants, AO techniques and instrumentation from across the world. We have a Cadaveric percutaneous Fixation session also. We plan to show case new instrument, implants and Orthosis designed by the best surgeons across the world, which will make doing these complicated fractures easier to do.

This time we have an optional Cadaveric MISS Spine fixation (Minimally invasive) session on 08/04/2022 is limited to 10 and includes the acetabular workshop.

The number of cadaveric participants are limited and given on first come first serve basis. Kindly book your seats at the earliest to avoid missing to learn from the best. Registration for CME is compulsory for workshop.

We have a residential package which includes the Basic and advanced (acetabular) workshop, stay at hotel Joys Palace (venue of CME) with transport to cadaveric session.

Participate, interact and make use of this opportunity to learn personally from the experts and improve your surgical skill to become the best.

Join this conference to have a memorable experience.

**Dr. Tomsee Anil Johnson** Course Chairman  
**Prof. Vinesh Senan** Chairman  
**Dr. Arun Ramanan** Course Secretary

**Programme at a Glance**

**Highlights of workshop**

**1st DAY**

**MISS Spine fixation**

- |                                     |                              |
|-------------------------------------|------------------------------|
| Types                               | Setup of equipment           |
| Basic instrumentation               | Closed reduction techniques  |
| Cadaveric Session/bone model        | Tips                         |
| Technique of pedicle screw fixation | How the experts do it        |
| Rod fixation                        | Cadaveric Session/bone model |

**Acetabular Fractures**

- |                             |  |
|-----------------------------|--|
| Anatomy                     | 4) Kocher Langenbeck Approach          |
| Classification              | Cadaveric Session/ Bone Model Session  |
| Approaches                  | Radiology and C-arm Positioning        |
| 1) Iliofemoral Approach     | Reduction Technique                    |
| 2) Ilioinguinal Approach    | Implantation and Instrumentation       |
| 3) Modified Stoppa Approach | Cadaveric Session / Bone Model Session |

**Prof. Jayaprakash C.**  
Honorary Chairman

**Dr. Tomsee Anil Johnson**  
Course Chairman

**Dr. Vinesh Senan**  
Chairman

**Dr. Arun Ramanan**  
Course Secretary

**2nd day  
Advanced acetabular workshop**

- Advanced acetabular workshop
- Anterior fixation on cadavers
- Posterior fixation on cadavers
- Percutaneous screw fixation
- THR on acetabular fractures with cage
- 2) Pelvis
- Anatomy
- Classification
- Approaches
- Radiology and C-arm positioning

- Reduction techniques
- Implantation and instrumentation
- Cadaveric session/ bone models
- Post lunch
- External fixation
- Symphyseal Plating
- Sacroiliac plating anterior/posterior
- Percutaneous sacroiliac screw fixation
- Cadaveric session/bone model session

**3rd day  
Highlights on CME**

- Classification of Acetabular Fractures
- Investigations and Radiology
- When to conserve/operate?
- Preoperative Planning
- How the experts do it ?
- 1) Anterior columns fractures
- 2) Posterior columns fractures
- 3) Both columns fractures
- 4) T type fractures and associated fractures

- How to manage the complications?
- Total hip replacement as a treatment?
- MISS Spine fixation - newer advances
- Classification of pelvic fractures
- How the experts manage these fractures?
- 1) Primary management
- 2) Sacroiliac joint - anterior vs posterior
- 3) Public Symphyseal-superior vs anterior
- 4) Public ramus - operative vs non operative X-ray discussion

**Expected AO and National Faculty**

**Dr. Ramesh Sen**  
**Dr. Pradeep Kothadia**  
**Dr. Papanacherry**  
**Dr. Tony Kavalakkatt**

**Spine workshop**

**Dr. Ranjith Unnikrishnan**

**Dr. Umesh Srikantha**

**Dr. Karthik Kailash**

**Registration**

RESIDENTIAL PACKAGE TWIN SHARING 3 days & 2 nights	INCLUDES WORKSHOP, (Acetabular) CME & Accommodation and transport to venue	22000			
	Basic Workshop (Acetabular)	Advanced Workshop (Acetabular)	MIS Spine + Acetabular Workshop	CME	Spot CME
