

CADAVERIC WORKSHOP & CME ON PELVIACETABULAR FRACTURE

Under the Aegis of
Kerala Orthopaedic Association

Trichur Orthopaedic Society
and **Govt. Medical College, Thrissur**

On 7th, 8th April 2018
At **GOVT. MEDICAL COLLEGE THRISSUR**
and **JOYS PALACE, THRISSUR, Kerala**

It gives us immense pleasure to invite you to the first **Cadaveric** workshop and CME on Pelviacetabular fractures to be held in Thrissur, Kerala on 7th and 8th April 2018.

Pelviacetabular fractures is on the rise due to high velocity accidents. It is a difficult problem to manage and requires a three dimensional idea.

We have eminent **AO faculty** and national faculty to train you in performing these complicated surgeries using **AO principles, instrumentation, implants and techniques**. They will give you hands on experience in tackling these complicated fractures.

The number of cadaveric participants is limited to 30 and is given on first come basis. Registration for CME is compulsory for workshop. We have a residential package for which CME and workshop is included

We have an innovative session on new techniques and technological advances in pelviacetabular fractures. In this session we give hands on experience on bone models in using new implants. We have included a 3D model creating session which tell you how to carry the fracture model to your operation theatre.

Participate, interact and make use of this opportunity to learn personally from the experts and improve your surgical skill to become the best.

We promise to make this conference a memorable experience
